OBJECTIVE

Motivated and detail-oriented software developer seeking to leverage strong programming skills and problem-solving abilities to design, develop, and maintain efficient software solutions. Passionate about building scalable applications and contributing to team success. Eager to learn new technologies and grow professionally in a dynamic, innovative development environment.

EDUCATION

Dhaanish Ahmed college of engineering
Bachelor's Degree in computer science engineering - 8.2%

📅 2021 – 2025   ⚲ Tambaram, Chennai

- -

Chennai higher secondary school
HSC - 76.99%

📅 2020 – 2021   ⚲ Kolathur,Chennai

Chennai higher secondary school
SSLC- 67.4%

📅 2018 – 2019   ⚲ Kolathur,Chennai

PROJECTS

- **PORTFOLIO WEBSITE**   Tech Stack: HTML, CSS, JavaScript

A responsive and visually appealing personal portfolio website designed to showcase my skills, projects , and contact information . Built using HTML for structure , CSS for styling and layout, and JavaScript for interactivity . The site includes smooth scrolling , animations, and a dynamic project section to highlight my work and achievements.

- **TICKET RESERVATION SYSTEM**   Tech Stack: Java, JDBC, MySQL

A desktop - based Ticket Reservation System developed using Java, integrated with a MySQL database via JDBC. The system allows users to book, cancel, and view tickets for transportation (bus/train) in real - time. It ensures data consistency, provides a user - friendly interface, and handles backend operations like seat availability, transaction storage, and record management.

- **ECOMMERCE SITE - SHOPEZ**   Tech Stack: MongoDB Express.js,React.js,Node.js

A full-stack e-commerce web application developed using the MERN stack that enables users to browse products, manage a shopping cart, and place secure orders. The platform supports both customer and admin functionalities, with real-time interactions and responsive design.

- **PORTFOLIO APPLICATION**   Tech Stack: Java, Firebase, XML(UI Design)

A dynamic Android mobile application built using Kotlin for functionality, XML for designing user interfaces, and Firebase for backend services like real-time data storage and user authentication. The app offers seamless user experience, data synchronization, and secure login features through Firebase integration.

CERTIFICATIONS

- programming in java advanced (NPTEL)
- Python basics (GUVI)
- Networking Essentials (CISCO)
- UI AND UX (Accenture)
- Database and sql (great learning)

INTERNSHIPS

1. pyroferus technologies

- **Role : Software tester (selenium)**
- **duration : 1 month**
- **26-6-2023 to 25-7-2023**

2. codsoft

- **Role : java developer**
- duration : 1 month

SKILLS

- Programming in Java
- Python (Basics)
- Networking
- Web Development: HTML5, CSS3, JavaScript
- Database Management: SQL, Mongo DB
- Version Control: Git, Github
- Tools: Eclipse, Android Studio

SOFT SKILLS

- Communication Skills
- Prioritize Learning
- Work Collaborative
- Problem Solving

LANGUAGES

- ENGLISH
- TAMIL
